*The disclosure is objected to because of the informalities set forth below. Appropriate correction is required.*

Reference numerals 14 and 52 are not shown in the figures as stated in the Detailed Description. Reference numeral 14 is not in figure 1 as stated. Reference numeral 52 is not illustrated at all. On page 8, line 2 of paragraph 4, reference numeral 14 is used inconsistently. On page 8, reference numerals 51 and 41 are used inconsistently. On page 8, the penultimate line, is "notion" used correctly. On page 9, the penultimate line, is "Remembering..." used correctly. Where was this previously discussed? Are frames 13 and 55 the same or different elements?

These informalities must be corrected in response to this Office Action.

*Restriction to one of the following inventions is required under 35 U.S.C. § 121:*

- I. Claims 1-9 and 13-19, drawn to a full face mask, classified in Class 128, subclass 201.12.*
- II. Claims 10-12, drawn to a method of sizing a nose cup, classified in Class 128, subclass 206.24.*

*The inventions are distinct, each from the other because of the following reasons:*

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as in other full face masks. See M.P.E.P. § 806.05(d).

*Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.*

*Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37*
